

Technician License Class and VE Testing Session

Sponsored by the Independent Radio Club

Saturday October 12, 2019 and October 13, 2019

Eagle Rock City Hall
2035 Colorado Boulevard
Eagle Rock, CA

The technician license is the entry license into amateur radio. This class is a great way to get you amateur license quickly in one weekend. Morse code is no longer required to get any amateur radio license. The class will be taught 9:00am to 5:00pm Saturday October 12 and 9:00am to 3:00pm Sunday October 13 at Eagle Rock City Hall. The class will be followed by a license testing session conducted by volunteer examiners from the Independent Radio Club.

The cost of the class is \$50 which includes a study book and the required testing fee (should you fail the examination, a second examination can be taken for an additional fee of \$15). We encourage you to sign up early as prestudy will increase your chances of success. To sign up for the class, mail in the coupon below with a check for \$50 made out to the Independent Radio Club. If you have any questions, contact Ken Chafin w6cpa@arrl.net or (818) 957-1699 or go to our web site www.ircradio.org .

The Independent Radio Club is sponsoring a license testing session Sunday October 13 at 3:00pm in Eagle Rock City Hall. You will need a picture ID, a copy of your current license (if any), your valid CSCE forms (if any), your social security number or FCC FRN, and the \$15 testing fee payable by cash or check.
